Fire Department:

C&H Fire Suppression Systems

To Whom It May Concern:

I have just received your inspection report from the inspection that your staff completed at Home Hardware in Georgetown.

I wanted you to know how impressed I was with the report. Everything is easy to read and not a fourth part carbon sheets that you cannot read. Everything is under an applicable heading and every part is answered with a yes, no or N/A.

The written in sections dealing with some items make it easy to understand for us, as well as the tenant. Recommendations are well described and highlighted to show the tenant that it is just a recommendation however it will give us ideas as well to double check to make sure the customer and the owners are properly protected.

Thank you for mailing it directly to us, this will save us time in trying to tract them down. I will check with Home Hardware to make sure they have copies of all.

We keep a list of companies who do sprinkler work, fire safety plans and fire alarm systems. We will give out the list if anyone asks for names. If it is ok with your company, I would like to add your name to the list.

Sincerely

Bruce Lewis
Fire Inspector
Halton Hills Fire Department
