Dear Mr. Heller

On behalf of the Planning Team of the Skilled Trades Career Day, we would like to thank you so much for your participation in this event which was held December 10, 2003 at the Kitchener Memorial Auditorium Complex.

You have been an integral part of this event and we appreciate the amount of time and effort that was expended to prepare your exhibit. It is very apparent that you are committed to the community and to the youth of Waterloo Region. This event was a huge success due to your enthusiasm, energy, creativity and willingness to "go the extra mile"! Your participation has enabled our students to become aware of the many opportunities available to them in the skilled trades.

The feedback that we have received has been very positive. We had over 1,600 participants involved during the day which explains why you were so busy during the event. The comments were very supportive of the Skilled Trades Career Day and teachers have shared some of the remarks that were made by their students.

- Got neat information on jobs that I didn't know were out there
- Would go back again
- Am considering a career change
- Did not know girls could do that job

These comments indicate the superb job that you did in promoting your trade to the youth of Waterloo Region. They also reflect that our objectives for this event have been met.

Again, our thanks for supporting the youth of our community by sharing your talents and experiences and giving of your valuable time.

Sincerely

Gary Berscht, WRDSB
OYAP Project Manager

Ron Harris, Planning Team
