

ST. HILDA'S TOWERS

December 11, 1997

Mike Heller
C & H Fire Suppression Systems Inc.
#103-274 Shirley Ave.
Kitchener, Ontario
N2B 2E1

Dear Mike:

Just a short note to let you and your company know how pleased we are with the fire sprinkler retrofit that was done for St. Hilda's Towers.

From the tender process right on through to completion, your onsite supervisors and the workmen were professional in every way. We were kept informed regularly of any changes or problems with our installation and the whole project was completed on schedule.

The use of the Ipex BlazeMaster system was particularly effective in gaining access into each apartment, which reduced the amount of cutting metal pipe and fittings.

St. Hilda's would be pleased to recommend your organization for any new or retrofit installation.

Sincerely,

Brian Borrowdale
Administrator
